In every era, there are women who rise—women who carry the weight of kingdoms, movements, and revolutions while radiating unshakable grace. Alies d'Or is an ode to these timeless heroines, a celebration of their strength, ambition, and resilience that transcends centuries.

Inspired by Cleopatra, the eternal queen, and the bold lines of the Art Deco era, Alies d'Or fuses ancient power with modern sophistication. Each piece is a masterpiece of anodized aluminum and lacquered palisander shells, reflecting a balance of softness and strength. The fan-shaped motifs evoke protection, expansion, and triumph—symbols of the enduring spirit of women who have shaped history.

This collection is not merely jewellery; it is armor for the ambitious. It whispers of the Egyptian Queen cunning diplomacy, the unapologetic glamour of the Roaring Twenties, and the untold stories of countless women who redefined power and femininity in their time. When you wear Alies d'Or, you carry their stories with you—their courage, their elegance, their unyielding resolve.
